Agenda Item	Discussion details	Decision details (who will do it and by when)
1	DSME Infographic flyer targeted more to physicians/clinicians/providers	Used the current individual focused DSME infographic flyer as a basis for the new flyer. Suggested additions, deletions, and modifications to modify the current flyer were made with physician/clinician/provider wording in mind. The flyer will use less graphics and focus more on things like outcomes, quality improvement, quality payment, data, and evidence based verbiage. Eve created a written draft layout with verbiage, which Kim DeCoste retained possession of.
2	Next steps for flyer	Tami Ross will find out if Bailey with the Lexington/Fayette county health department can take the paper version of the draft flyer and make it into an electronic version. If not, David Davis will try to create the flyer with a new infographic program the KDPH has. Goal is to share a draft version of the

		flyer at the September workgroup meeting.
3	Questions for physician/clinician/provider draft flyer reviewers	Potential questions to ask physician/clinician/provider reviewers of the draft flyer were discussed. They will be worked on further at the workgroup's meeting in September.
