

RAISE AWARENESS OF PREDIABETES

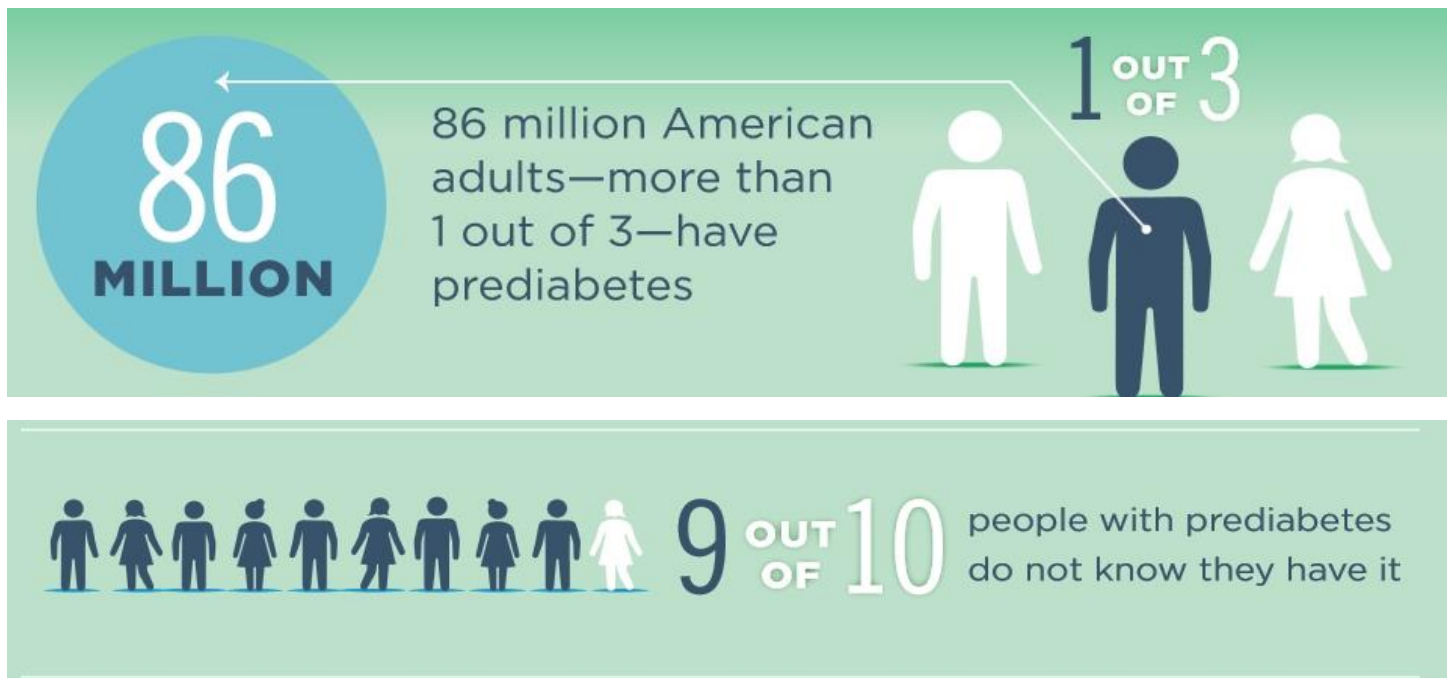

Help us inform Kentuckians about **PREDIABETES**.

Please share this Kentucky-made Public Service Announcement (PSA) on your business and personal social media. PSA developed by an award winning Green County ATC HOSA – Future Health Professionals Group.

Access the **PREDIABETES** PSA directly: <https://youtu.be/sxyNXYa7D2A>

The PSA will drive viewers to CDC's www.DidIHavePrediabetes.org website to take a 1 minute **PREDIABETES** risk test and find out more information about preventing type 2 diabetes.

Thank you for your consideration and help to make Kentuckians aware of their **PREDIABETES** risk -- when intervention can help reverse Kentucky's diabetes epidemic!
