

## Kentucky Diabetes Network

### Workgroup Meeting Minutes: Partnerships and Networking September 13, 2019

Work Group Chair/s: John Bunton, Will Hancock

Today's Recorder: Will Hancock

Today's Reporter: Will Hancock

Members Present: Richard Heine, Mechelle Coble, Anne Berry, Brooke Hudspeth, Shelby Lowe Curtis

<b>Agenda Item</b>	<b>Discussion details</b>	<b>Decision details (who will do it and by when)</b>
Debrief on meeting with Pat Ryan of the Lexington Lions Club and UK School of Pharmacy.	Most members had heard of the success between the Lions and UK School of Pharmacy. They have an ongoing partnership where students and faculty are volunteering to help with screening and patient education.	No additional follow-up items for the team at this time. We will use follow-up from Pat Ryan as guidance for the next meeting.
Restarting the faith-based community initiative	We need to find a new leader and additional contacts for the faith-based initiative.	Richard to reach out to Cathy at Norton who manages their faith-based initiative.  Will to review the archives for contacts at Bowling Green and WKY churches that were active. Looking for congregational champions what the faith-bases work ground can support.

		<p>Mechelle Coble to reach out to congregations that participated in faith based initiatives two years ago.</p> <p>Shelby to reach out to her dad, a pastor in Monroe Co., about interest in diabetes screening and education.</p>
